

PROFESSIONAL SUMMARY

Multidisciplinary Researcher and Strategist working at the intersection of culture and technology. Expertise in applying ethnographic methods to digital ecosystems, AI ethics, and service design. Proven ability to navigate complex "black box" systems to deliver human-centered insights. Specialized in translating high-level academic theory into actionable product and organizational strategy.

SKILLS & TOOLS

- **Research:** Digital Ethnography, UX Research (UXR), Participant Observation, Semi-structured Interviewing, Thematic Analysis, Qualitative Synthesis.
 - **AI & Strategy:** Algorithmic Bias Analysis, Human-AI Interaction (HAI), AI Ethics & Governance, Socio-technical Systems Mapping.
 - **Design & Ops:** Service Design, User Journey Mapping, Intercultural Mediation, Field Coordination, Logistics.
-

SELECTED PROJECTS & EXPERIENCE

Digital Anthropology · AI · UXR | *Independent Researcher*

- Investigated the "black box" of AI datasets and post-artificiality to advise on human-centric development and ethical alignment with social reality.
- Synthesized qualitative data into high-impact thought leadership, mapping how online cultural pulsions interact with digital and algorithmic infrastructures.

Auxlia: Orientation & Support | auxlia.com | *Founder & Lead Researcher*

- Developed and piloted a Proof of Concept (PoC) for a novel human-centered support service, translating intercultural mediation expertise into cognitive accessibility solutions for complex travel transitions.
- Modeled orientation strategies focused on mental load reduction and "calm presence," articulating anthropological research and service design to ensure intuitive, steady navigation (R&D phase).

Intercultural Mediation: Field Coordination | *Freelance Consultant*

- Orchestrated large-scale logistics and field coordination in a high-pressure, bilingual (EN/FR) environment, managing seamless service delivery.
- Served as a cultural mediator, resolving operational bottlenecks through real-time observational research and cross-functional stakeholder communication.

Emerging Technology Apply Club: Applied Anthropology Network | *Strategic Lead (Volunteer)*

- Appointed to lead research initiatives evaluating the social adoption of emerging digital tools to bridge the gap between community needs and technical specifications.
 - Facilitating collaborative research sessions within the Apply Club to ensure grassroots cultural insights inform inclusive technological development.
-

EDUCATION

- **MA Anthropology** | Université Lumière Lyon II, Lyon, France (2024)
- **BA Anthropology & French** | Rutgers University, New Brunswick, NJ, USA (2017)
