SELECTED EXPERIENCE

Independent Researcher | Digital Anthropology & AI Ethics

- Investigating "black box" AI datasets and post-artificiality to advise on human-centric development and ethical alignment with social reality.
- Synthesizing qualitative data into thought leadership mapping the interaction between cultural pulsions and digital infrastructures.

Emerging Technology Apply Club (Applied Anthropology Network) | Strategic Co-Lead

- Defining research mandates to evaluate the social adoption of emerging digital tools, bridging the gap between community needs and technical specifications.
- Facilitating collaborative research sessions to ensure grassroots insights inform inclusive and ethical technological development.

Auxlia: Orientation & Support | Founder & Lead Researcher

- Developed a PoC for a human-centered support service, translating mediation expertise into cognitive accessibility solutions for high-friction travel environments.
- Modeled orientation strategies focused on mental load reduction and "calm presence" to ensure intuitive navigation.

Field Operations & Intercultural Mediation | Freelance Consultant

- Orchestrating large-scale logistics and field coordination for international B2B clients in high-pressure, bilingual (EN/FR) environments.
- Acting as a primary intercultural liaison between French agencies and global stakeholders to optimize service delivery and resolve operational bottlenecks.
